INTRODUZIONE

MOLLE AD ARIA

Le molle ad aria si utilizzano quali sospensioni di autocarri, autobus ed autoveicoli in genere. Trovano impiego inoltre come attuatori, ad esempio sui macchinari tessili e per cartiere, nelle presse per stampaggio, nei sollevatori per auto-officine, in alternativa anche ai classici pistoni ad aria e ad olio.

Le molle ad aria sono costituite da un involucro di gomma-tela ad elevata resistenza alle pressioni dell'aria richieste.

La gomma ha la proprietà di impermeabilizzare la tela e di renderla resistente agli agenti atmosferici e agli olii lubrificanti. Il tessuto ha la funzione di sopportare le pressioni di esercizio.

La chiusura ermetica delle sospensioni avviene tramite apposite flange o piatti metallici zincati, che servono anche da strutture di ancoraggio all'impianto cui è destinata la sospensione.

Vantaggi: peso ridotto - nessuna manutenzione - lunga durata - facilità di installazione - dimensioni contenute - sicurezza - confort elevato e silenziosità di marcia - caratteristiche di molleggio invariabili - altezza statica indipendente dal carico - nessun sfregamento tra parti in movimento.

INTRODUCTION

AIR SPRINGS

The air springs are used as suspensions for trucks, buses and vehicles in general. Furthermore they are used as an actuator, for example on textile machines and for paper mills, on stamping press, on lifting units for car repair shops, also alternatively to the classical oil air pistons. The air springs consist of a rubberized fabric envelope which is highly resistant to the air requested pressures.

The rubber serves to impermeabilize the fabric in order to resist against the atmospheric agents and the lubricating oils. The fabric has the function to support the working pressures.

The suspension hermetic sealing is performed either by proper galvanized metal flanges and plates which serve as anchorage structures for the installation to which the suspension is intended for.

Advantages: low weight - no maintenance - long life - easy installation - reduced dimensions - safety - excellent ride comfort and lack of noise - unchangeable springing - static height independent from the load - no friction because no sliding members.

AVVERTENZE

Tutte le informazioni riportate nel presente catalogo sono da considerarsi affidabili ed accurate, tuttavia la società Gart S.r.l. non fornisce garanzia, espressa o implicita, per le stesse. Ognuno, facendo uso di queste informazioni, lo fa a proprio rischio e si assume tutte le responsabilità derivanti dall'uso stesso.

Le caratteristiche indicate non sono vincolanti, la società Gart S.r.l. si riserva la facoltà di apportare eventuali modifiche anche senza preavviso. Per ulteriori informazioni contattare il nostro ufficio tecnico.

E' vietata la riproduzione anche parziale del presente catalogo senza autorizzazione scritta. Il presente catalogo annulla e sostituisce i precedenti e qualunque altra comunicazione in merito.

I marchi e i nominativi qui menzionati sono registrati dai rispettivi proprietari.

Tutti i nominativi dei costruttori e i relativi riferimenti originali citati nel presente catalogo sono riportati a puro titolo indicativo. I nostri prodotti non sono originali ma con essi intercambiabili.

PLEASE NOTE

The information reported in the present catalogue are believed to be reliable and accurate, however Gart S.r.l. doesn't make any warranty express or implicit of this information. Anyone, making use of this material, does so at his own risk and assume all liability for the use itself.

The characteristics of the articles indicated are not necessary binding, Gart S.r.l. reserves the right to make any change to the contents even without notice. For more information please contact our technical department.

Copying any part of this catalogue is forbidden without Gart's written authorization. The present catalogue annuls and replaces any previous catalogue and any other information communicated.

All trademarks and registered trademarks mentioned herein are the property of their respective owners.

The name of manufacturers and the o.e. references mentioned in this catalogue are given for cross-reference purposes only. Our products are not original but interchangeable with.

IDENTIFICAZIONE DELLE MOLLE AD ARIA

Ogni molla ad aria GART è identificata con il tipo e il numero di codice.

Il tipo identifica la membrana di gomma, ed è stampigliato sulla membrana stessa.

Il codice identifica le diverse versioni fornite, quindi per ogni tipo di membrana possono esistere diversi codici. Per questo bisogna sempre specificare il tipo indicato sulla membrana e il codice.

ESEMPIO:	TIPO CODICE
T271	271.3.290
T271	271.3.295
D278/E	278.2.430
D278/E	278.2.432

IDENTIFICATION OF AIR SPRINGS

Every airspring GART is identify with a type and a code.

The type identify the bellow of rubber and it is stamped on the bellow.

The code identify the different kind of versions,so for a single type could be different codes.

For that reason you have to specify always the type of the bellow and the code.

EXAMPLE:	TYPE CODE
T271	271.3.290
T271	271.3.295
D278/E	278.2.430
D278/E	278.2.432

Nonostante la cura e l'attenzione impiegata per la stesura del presente catalogo possiamo essere incorsi in qualche involontario errore. Ci scusiamo anticipatamente e Vi preghiamo di darne cortese comunicazione.

We take the maximun care in making this catalogue, but some mistake could be involuntary done. If so, we sorry about that, and we will be very grateful if you will comunicate us.
