Subject: Kuwait Petroleum Product Range
for Turbine / Compressor Lubrication
Your letter WS 86-55 dated June 4, 1986
Your telex WS 86-77 C dated 25/7/1986

Dear Sir,

during meeting with our Mr. K.B. Otto you requested a confirmation by ourselves that the Code 11 and Code 12 products meet the requirement of our oil specification for turbo compressors.

We herewith confirm that the properties of the mineral oil product Code 11 as shown on your Product Data Sheet dated February 1986 meet the requirements of our oil specification Works Standard No. 800 037 98 (attached).

We regret that we are not able to give this confirmation for Code 12 product also, as the indication of the following properties is missing:

Water Emulsion acc. ASTM D 1401 (DIN 51599)
Air Release acc. ASTM D 3427 (DIN 51381)
Steam Emulsion acc. DIN 51589
Oxydation acc. ASTM D 943 (DIN 51587).

We hope to have been of assistance to you and remain

yours sincerely

Code 11: Q8 van Gogh
