26 OKT. 1994	
MCJB WS SCH CF	
Dato/Date 24. Oct. 1994	

Referring to inspection of Ulstein Bergen gas engine KVGS-18 in Elstrupholm Fjernvarme 4/10-94, after running on Q8 Mahler LA40 - lube oil 1224 hours from new, we find from the results to take your lub.oil on to our LUBRICANT GUIDE enclosed. We hope that for a time we can get your lube analysis from this engine.

As for the cost of the inspection, we allow us to charge you for Mr. Horvei's airticket, and attached you will find the invoice.

You will also find in the LUBRICANT GUIDE the Shumann 68 Syntetic oil added.

Yours faithfully
for Ulstein Bergen AS

A.J. Horvei
Chief Engineer

Enclosure.

C.C. Wim Stoop
