Ulstein Bergen Gas Engine Oil Recommendation

Based on our experience so far Ulstein Bergen has agreed to change their recommendation from Q8 Mahler LA 40 to Q8 Mahler MA 40 for the Bergen gas engine.

Fax from Ulstein Bergen is appended.

The background is that the engine has been modified so the oil consumption has dropped radically from about 1.2 g/kWh to below 0.5 g/kWh wherefore a higher ash content of the used engine oil is acceptable.

Yours faithfully,
Kuwait Petroleum (Danmark) A/S

Søren Julegaard

Merknader/Remarks:

Endring i smøreoljekvalitet på Bergen gassmotorer.

Vi har hatt påskeferie til i dag og vi viser til Deres telefax av 26/3-97.

Vi sier oss enige i fra nå av å spesifisere Q8 Mahler MA 40 på våre gassmotorer, og er enige i å etterfylle motorene i Gartneriet Rosborg Belligne A/S med Q8 Mahler MA 40.

Vennlig hilsen
Arvid J. Horvei
