5 kıtada 100 ülkede güvenli sürüşün başlangıç noktası

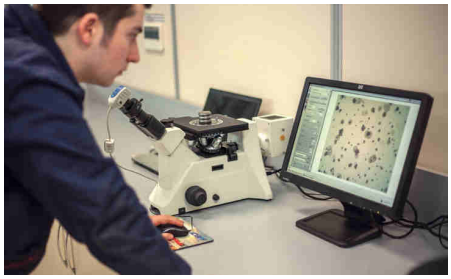
NSK GROUP bünyesinde NSK Otomotiv, NSK Sıcak Metal Dövme fabrikaları, RAN Sinai Mamüller Otomotiv Pazarlama, RAN Otomotiv ve NSK Do Brazil şirketleri bulunmaktadır. NSK GROUP, 15.000 m2'si kapalı olmak üzere toplamda 28,000 m2'lik alanda 300 kişilik personelle üretim ve satış-pazarlama faaliyetlerini yürütmektedir.

Kuruluşu 1950 yılına dayanan NSK Otomotiv, Bursa'nın Karacabey İlçesi'nde faaliyetlerine devam etmektedir. 1982 yılından bu yana rot imalatı yapan NSK Otomotiv, ticari araçlar, zirai traktörler, iş makinaları ve özel araçlar için ROTA markası ile direksiyon ve süspansiyon parçaları üretilmektedir.

Rot, rotbaşı, rotil, komple rot, rot kolu, rot mili, V kol, bugi kolu gibi 6 bin çeşit ürün skalasına sahip olan NSK GROUP, pazarlama, kalıphane, sıcak dövme, talaşlı imalat, kalite ve montaj bölümleri ile entegre bir tesistir.

Az miktarlı, çok çeşitli ve özel nitelikli ürünler üretme konusunda uzmanlaşan ve ISO 9001, TS 16949, ISO 14001 ve OHSAS 18001 belgelerine sahip olan NSK Otomotiv, orijinal ekipman tedarikçisi olarak, orijinal ürün garantisi, ürün sorumluluk sigortası ve satış sonrası hizmet desteği ile sektöründe fark yaratmaktadır.

Üretiminin % 85'ini 5 kıtadaki 100 ülkeye ihraç eden, %20'sini ise OEM-OES sanayi müşterilerine tedarik eden NSK Otomotiv, hareket güvenliğine teknolojisiyle, yenilikçi, yüksek standartlarda, çevreye saygılı üretim anlayışla değer katmaktadır. NSK Otomotiv, tüm üretim süreçlerini kontrol altında tuttuğu ve yüksek kalite düzeyinde ürettiği ürünlerini "ROTA" markası ile tüm dünyaya sunmaktadır.



ÜRETİM VE KALİTE YOLCULUĞUNDA REHBERİMİZ DAİMA ULUSLARARASI STANDARTLAR OLDU. OTOMOTİV ENDÜSTRİSİ İÇİN GEÇMİŞTEN GÜNÜMÜZE REHBER EDİNDİĞİMİZ İLKELERİ KALİTEYLE SIKI SIKIYA BAĞLADIK!

EN

The starting point of driving safety in 5 continents, 100 countries

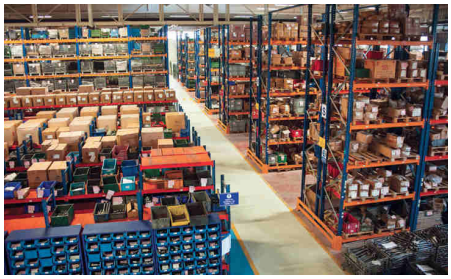
NSK Automotive, NSK Hot Metal Forging plants, RAN Automotive, NSK Do Brasil and RAN Industrial Products Automotive Marketing companies are operating under NSK GROUP. NSK GROUP has been performing production and sales&marketing operations on a total area of 28,000 m2 with an indoor area of 15,000 m2 with experienced 300 employees.

NSK Automotive has been established in 1950 and continues its operations in Karacabey District of Bursa. The company has been manufacturing steering and suspension parts since 1982 for commercial vehicles, agricultural tractors, construction machines and special vehicles under the brand of ROTA .

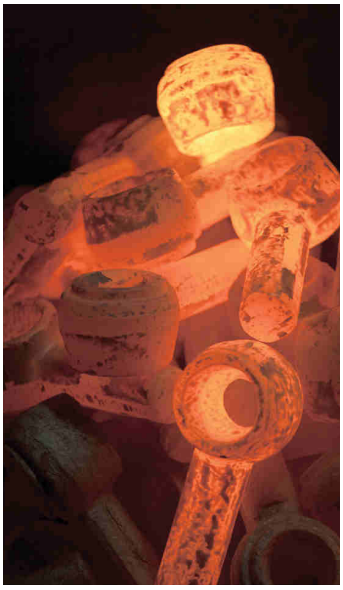
Having a product range of over 6000 items such as tie rod end, ball joint, centre rod, tie rod steering, axial joint, V stay arm, torque rod, NSK GROUP has an integrated factory with its marketing, molding, hot forging, machining, quality and assembly departments.

Specialized in producing low volume, wide variety, special products and holding ISO 9001, TS 16949, ISO 14001 and OHSAS 18001 certificates, NSK Automotive makes a difference in its sector as an original equipment manufacturer with original product warranty, product liability and after-sales service support.

Exporting 85% of its production to 100 countries in 5 continents and supplying 20% to OEM-OES industry customers, NSK Automotive adds value to environment with its technology and an innovative, environment friendly production understanding of high standards. NSK Automotive offers its high quality products production processes of which are kept under control under “ROTA” brand.



IN THE JOURNEY OF QUALITY AND PRODUCTION, OUR GUIDE WAS ALWAYS INTERNATIONAL STANDARDS. WE HAVE TIGHTLY BOUND PRINCIPALS THAT GUIDE US FROM PAST TO PRESENT WITH THE QUALITY FOR THE AUTOMOTIVE INDUSTRY.



Why Rota?

Experience since 1950
2 years or 150.000 km warranty
Wide product range
Proffesional service
Tailor made solutions
Just in time delivery

En 5 continentes y 100 países, punto de partida de la seguridad en la conducción

NSK Automotriz, NSK Forja en Caliente, RAN Automotriz, NSK Do Brasil y RAN Sinaí Mamuller Ltd., son partes de GRUPO NSK que han mantenido sus actividades de producción y ventas de la comercialización, con la ayuda de su personal experimentado de 300 personas, en sus plantas integradas completas con un total de 15.000 m2 de área cubierta de 28.000 m2.

Después de su fundación en 1950, NSK GRUPO comenzó a servir en la industria del automóvil y ha sido la producción de piezas de dirección y suspensión para vehículos industriales, tractores agrícolas, vehículos de construcción y vehículos especiales bajo la marca de ROTA en la ciudad de Bursa, Karacabey desde 1982. GRUPO NSK que tiene una gama de productos de 6.000 piezas de repuesto como barra de dirección, rótula, barra en “V”, barra de reacción, kit de reparación, tiene una fábrica integrada con su fabricación, forja en caliente, control de calidad, ensamblaje , utillaje, mecanizado y las secciones de comercialización.

NSK Automotriz que ha especializado en la producción de bajo volumen y una amplia variedad de productos hace una diferencia en su área con la norma de ISO 9001, TS 16949, ISO 14001:2004, OHSAS 18001 y el equipo original, garantía estándar del producto, el seguro de responsabilidad del producto y el servicio de soporte de post-venta.

NSK Automotriz exporta el 85% de su producción a 100 países de los 5 continentes y suministra el resto a los clientes OEM-OES. Con su tecnología y un innovador, de alto nivel y la mentalidad de producción respetuosa del medio ambiente NSK agrega valor a la seguridad del movimiento.

Bajo la marca de ROTA, NSK Otomotiv ofrece sus productos de alta calidad que mantenían controlado en todo el proceso de producción en el mundo.

RU

Отправная точка безопасного движения на 5 континентах, в 100 странах

NSK Automotive, NSK Hot Metal Forging, RAN Automotive, NSK Do Brasil и RAN Sınai Mamuller Ltd., которые являются частью Группы NSK, продолжают своё производство и исследования в сфере маркетинка и продаж. Производство организовано на заводе, общей площадью 28000 м2 и опытным персоналом – более 300 человек.

После своего основания в 1950 году, компания NSK GROUP начала работать в автомобильной промышленности и стала производить запчасти для рулевого управления и подвески, предназначенные для коммерческих автомобилей, сельскохозяйственных тракторов, строительных машин и специальных транспортных средств. Под маркой Рота, компания оперирует с 1982 года, в районе города Караджабей, Бурса.

NSK GROUP имеет широкий ассортимент своей продукции. NSK GROUP производит более 6000 частей, такие как наконечник рулевой тяги, шаровой шарнир, продольный рычаг, V треугольный рычаг, стержень, работающий на кручение, ремонтный комплект, арматура. Имеется интегрированный завод для изготовления, контроли качества, сборки, горячей ковки, обработки и секции сбыта.

NSK Automotive, специализирующийся на мелкосерийном производстве и имеющий широкий ассортимент продукции, получило своё признание благодаря сертификатам качества ISO 9001, TS 16949, ISO 14001:2004, OHSAS 18001. Сертификат за оригинальное оборудование, гарантия качества изделия, страхование ответственности за качество продукции и обслуживание после продажи. NSK Automotive экспортирует 85% своей продукции в более 100 стран на 5 континентах.

Компания также поставляет OEM-OES части для своих клиентов. Благодаря своим технологиям, инновационному, высокостандартному и экологически безопасному производству, NSK повышает ценность безопасности движения. Под брендом Рота, NSK Otomotiv предлагает свою высококачественную продукцию, которая может быть доставлена в любую точку мира.

В ПУТИ ПРОИЗВОДСТВА И КАЧЕСТВА, МЫ ВСЕГДА ОРИЕНТИРОВАЛИСЬ НА МЕЖДУНАРОДНЫЕ СТАНДАРТЫ. МЫ КРЕПКО СВЯЗАЛИ КАЧЕСТВО С ПРИНЦИПАМИ, ПРИДАВШИМИ НАПРАВЛЕНИЕ В ПРОШЛОМ И БУДУЩЕМ В АВТОМОБИЛЬНОМ СЕКТОРЕ.

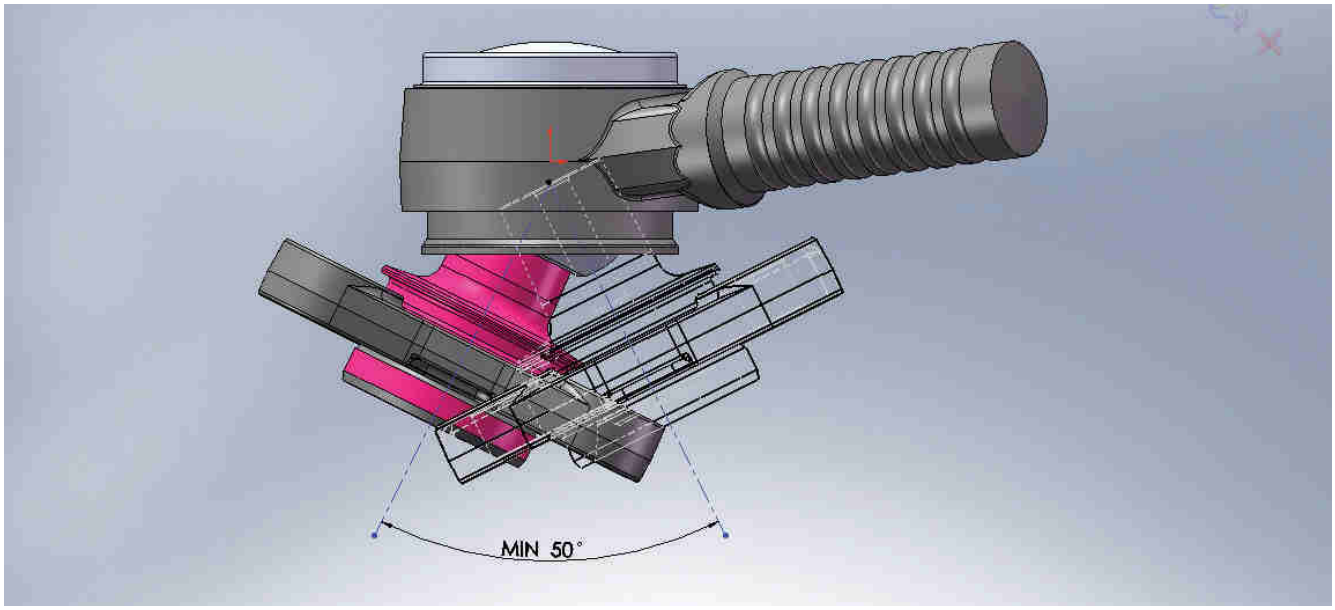
“Teflon Yataklama” V Kol için Daha Uzun Kullanım Ömrü Sunuyor

Longer Service Life for V Stay Arm with “Teflon Bearing”

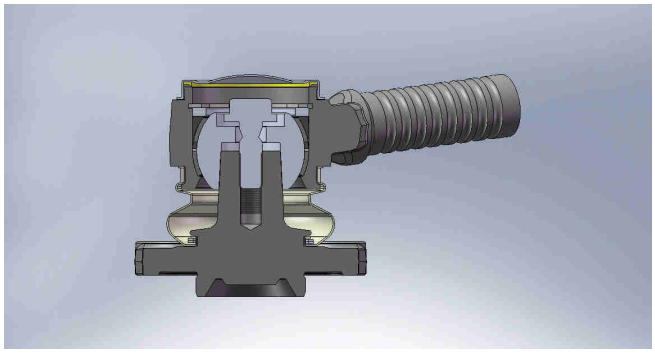


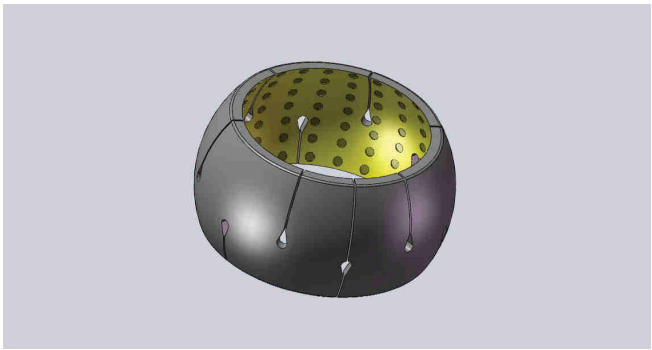
ROTA, off road ve ağır hizmet tipi araçlar için yeni geliştirdiği patentli ‘teflon yataklama’lı V kol ile ürünlerin çabuk aşınmasını engelleyerek daha uzun kullanım ömrü sunmaktadır.

Off road ve ağır hizmet araçları için geliştirilen ‘teflon yataklama’ sistemi kompozit malzemeden yapılmış olup plastik yataklı ürünlere göre dayanıklılık süresi daha uzundur. Plastik yataklı ürünlerin çabuk aşınması nedeniyle, akma noktası daha yüksek olan ‘teflon yataklama’ sistemine geçilerek V kolun kullanım ömür uzatılmıştır.

ROTA offers a longer service life by preventing abrasion of products with the patented ‘teflon bearing’ V stay arm it has recently developed for off-road and heavy duty vehicles.

‘Teflon bearing’ system developed for off-road and heavy duty vehicles is manufactured from composite material and has an extended durability when compared to plastic bearing products. Due to the deformation of plastic bearings, ‘teflon bearing’ system which has a higher yield point is preferred to extend the service life of V stay arm.





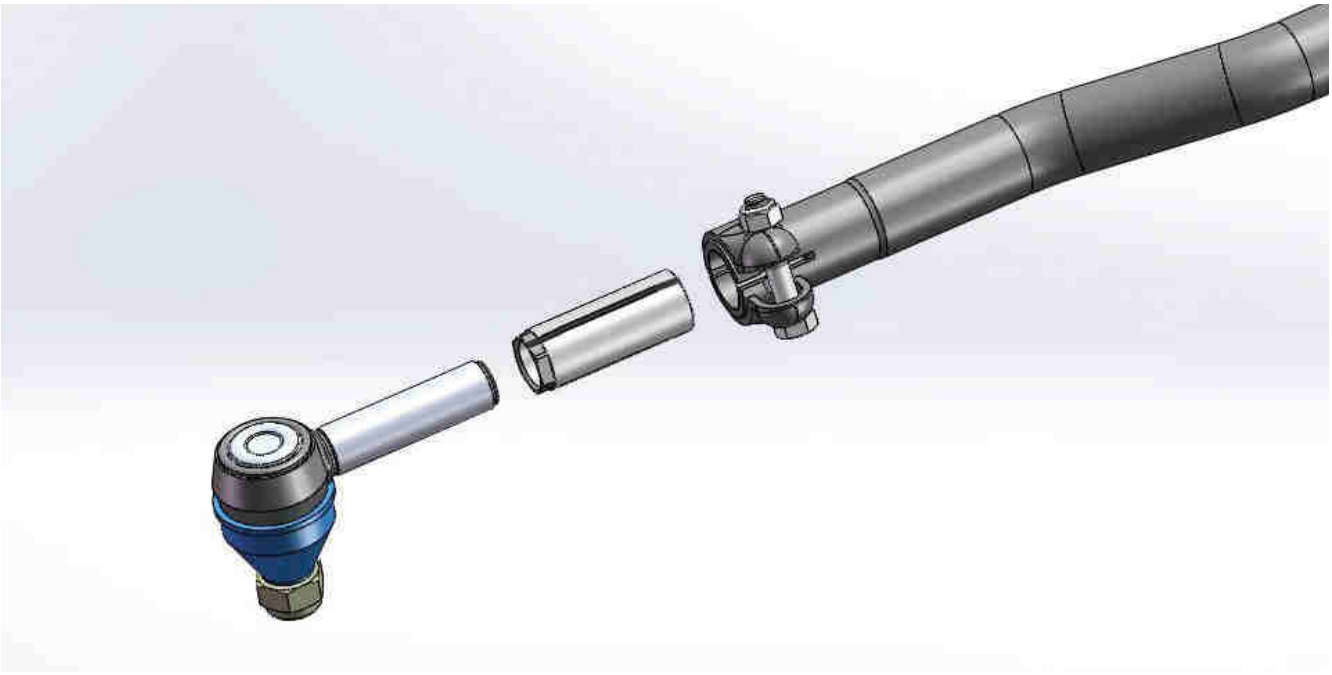
Buna ek olarak yapı içerisinde küresel bölgenin sonunda bulunan çentik ve yük etkisinden dolayı yatak malzemesi zaman içinde deformasyona uğramaktadır. ‘Teflon yataklama’ ile V kolun çalışması sırasındaki salınım açısı genişletilmiştir. Böylelikle birim yüzeye düşen yük taşıma kapasitesinin artırılması sağlanmış olup, salınım açısı 44°’den 50 °’ye çıkartılarak V kol’un daha esnek hareket edebilmesine olanak sağlanmıştır.

Additionally, due to notch and load effect present at the end of the spherical zone in the structure, bearing material is subject to deformation in time. Oscillation angle during operation of V stay arm is extended thanks to ‘teflon bearing’. Thus, load bearing capacity per unit surface is increased and oscillation angle is increased from 44° to 50° to offer a more flexible action for V stay arm.

Bu çözümün patenti NSK Otomotiv tarafından alınmıştır.
This solution has been patented by NSK Automotive.

“C Tipi Adaptör” ile Daha Güvenli Sürüş

Driving Safety with “C Type Adjuster Sleeve”



ROTA, ticari araçlarda kullanılan komple rotlar için yeni geliştirdiği patentli ‘C tipi adaptör’ ile rotbaşının komple rotdan çıkmasını engelleyerek daha güvenli bir sürüş imkanı sunmaktadır.

Komple rotlarda boru içerisinde yer alan adaptörler, rotbaşlarının stabil kalmasını sağlamaktadır. Standart olarak kullanılan 3 yarıklı adaptörde rotbaşı çıkma problemleri ve düzensiz sıkma kuvveti dağılımları yaşanmaktadır.

Rota, geliştirdiği tek yarıklı ‘C tipi adaptör’ ile rotbaşı üzerindeki sıkma kuvvetini arttırarak, rotbaşının komple rotdan çıkma problemlerini minimize etmiştir. Yapılan AR-GE çalışmalarında ‘C tipi adaptörün’ kullanıldığı komple rotlar, standart 3 yarıklı adaptörün kullanıldığı komple rotlara göre 2 kat daha fazla direnç sağladığı sonucuna ulaşılmıştır.

ROTA offers a safe driving by preventing pull out of the tie rod end from the drag link with the patented ‘C type adjuster sleeve’ it has recently developed for drag links used in commercial vehicles.

Adapters located in the tube in drag links ensure stability of tie rod ends. Tie rod end pull out problems and irregular tightening force distributions are experienced in 3 slot adjuster sleeve used as standard version.

Rota has minimized pull out issues of tie rod end from drag link by maximizing the tightening force on the tie rod end with single slot ‘C type adjuster sleeve’ it has developed. Drag links which are including ‘C type adapter’ are observed to perform two times higher resistance than standard 3 slot adjuster sleeve according to R&D studies.

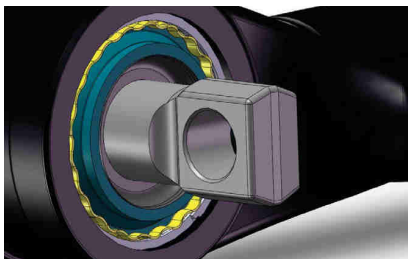
Bu ürünün faydalı model patenti NSK Otomotiv tarafından alınmıştır.
This product’s useful model patent has been taken by NSK Automotive.

“Segman Kilidi” ile Kronik Sorunlara Patentli Çözümler

Patented Solution to Chronic Problems with “Snap Ring Lock”

ROTA, ağır şartlarda çalışan araçların direksiyon ve süspansiyon sistemlerinde oluşan segman atması sorunu için patentli ‘segman kilidi’ çözümünü geliştirdi. ROTA ‘Segman kilidi’ ile direksiyon ve süspansiyon parçalarına daha etkin ve uzun kullanım ömrü sunmaktadır.

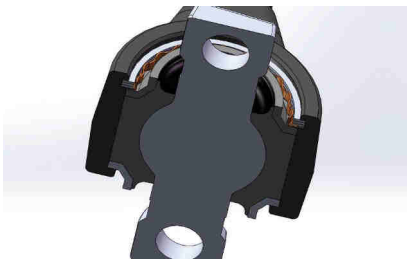
Ağır ticari araçlar, normal kullanım şartlarının çok üstünde yük kapasiteleri ile kullanılmaktadır. Bu araçların süspansiyon sistemini oluşturan V kol, bugi kol ve benzeri fonksiyonları yerine getiren parçalarda bulunan tamir takımlarını gövdeye sabitleyen segmanlar yerinden çıkmaktadır. Segman atması sonucu araçlarda oluşacak problemleri önlemek amacıyla ROTA ‘segman kilidi’ni geliştirmiştir. ‘Segman kilidi’ molekül ya da tamir takımının gövde içerisinde daha uzun süreler çalışmasını sağlamaktadır.



Laboratuvar ve saha test çalışmaları tamamlandıktan sonra ‘segman kilidi’ bulunan V kol ve bugi kol üretimine 2013 yılında başlanmıştır. ROTA, ‘ segman kilidi ’ takılı olan süspansiyon parçalarını 5 kıtadaki 100 ülkeye ihraç etmekte olup, henüz hiçbir segman atma şikayeti almamıştır.

ROTA developed patented ‘snap ring lock’ solution for snap ring pull out problems for suspension systems of heavy duty vehicles. ROTA offers more effective and longer service life for suspension parts thanks to its ‘Snap ring lock’.

Heavy commercial vehicles are used with over load capacities which are far in excess of normal operating conditions. Repair kits which are running inside the housing of V stay arm &torque rod, face pull out problem caused by snap ring. ROTA developed ‘snap ring lock’ to prevent problems in vehicles due to snap ring pull out issues. ‘Snap ring lock’ ensures that repair kit of V stay arm and torque rod can function inside the housing for longer periods.



Upon completion of laboratory and field test studies, production of V stay arm and torque rod implemented ‘snap ring lock’ commenced in 2013. ROTA exports suspension parts which are applied with ‘snap ring lock’ to in 100 countries, 5 continents and has not received any snap ring pull out complaint yet.

Bu çözümün patenti NSK Otomotiv tarafından alınmıştır.
This solution has been patented by NSK Automotive.
