

QUICK REFERENCE CATALOGUE

INTRODUCTION

> GENERAL INDEX

Gives « recognized » descriptions of groups, and the page numbers covering them

> "ORIGINAL" NUMBERS

Means the part numbers used by the **manufacturer** (Wabco, Knorr, Haldex, ...).

A complete **cross reference** for these numbers to **TT numbers**, and vice-versa, is given on our website : <http://www.trucktechnic.com>

> OEMs

Means **Vehicle Makers**. Only the **main OEM part numbers** are given.

OEM abbreviations used :

Main OEMs	Other OEMs		
DAF = DAF	AUW = AUWARTER	FIA = FIAT	LEY = LEYLAND
DAI = DAIMLER BENZ	BPW = BPW	FRU = FRUEHAUF	NEO = NEOPLAN
IVE = IVECO	CAT = CATERPILLAR	GIG = GIGANT	PEG = PEGASO
MAN = MAN	CUM = CUMMINS	GOL = GOLDHOFER	PER = PERKINS
RVI = RVI	DEN = DENNIS	HIN = HINO	POC = POCLAIN
SCA = SCANIA	EBR = EBRO	IKA = IKARUS	RAB = RABA
VOL = VOLVO	ERF = ERF	ISU = ISUZU	ROR = ROR
	EVO = EVOBUS	KEN = KENWORTH	SCH = SCHMITZ
	FAU = FAUN	LEC = LECINENA	VHO = VAN HOOL

Most other information is self-explanatory, if you need more, consult us (trucktechnic@trucktechnic.com).

> REPAIR KITS are shown at the end of each section in ALPHA-NUMERICAL ORDER

> ORIGINAL - TT New - Reconditioned ?

Our offers and our invoices clearly define the origin of all parts :

> Any part that begins with a '**T**' = New, of our own manufacture.

> Any part that ends with '**OR**' = ORIGINAL (Wabco, Knorr, etc ...)

> Otherwise = **Reconditioned**

Original part numbers and manufacturer's logos are used for identification purposes only.

GENERAL INDEX

IMPORTANT

Every system part used in TT kits and workshops is subjected to rigorous tests in all kinds of grease and hydraulic fluid to be found on the market.

Rubber components have to be compatible not only with our lubricants, but also those likely to be used around the world.

Through experimentation with Wabco, Knorr and competitors lubricants we have acquired a wide knowledge of synthetic and natural rubber components which, shared with our suppliers, has resulted in reliable components, compatible with most lubricants.

We therefore recommend that you profit from our experience by acquiring in BULK what we deem to be the best grease for the job.

The quantity of grease provided in our, or competitors' repair kits may not always be perfectly adapted to the amount actually required .

N°	TT N°	QUANTITY	TYPE	APPLICATIONS
1	TSK.10	1 KG	BLUE	Air brake UNIVERSAL*
2	TSK.11	1 KG	RED	For sliding pins in air disc brake calipers
3	TSK.12	1 KG	BLACK	For automatic slack adjusters
4	TSK.13	1 KG	ORANGE	For Rubber parts in disc brake calipers (High T°)

* **Universal grease** obviates the need to use different kinds of grease for air and hydraulic applications (for example clutch servos) Hydraulic parts especially react better to a light smear of universal grease than to lubrication by DOT 3, 4 or 5 brake fluid - which can lead to swelling.

Typical sachets delivered with TT kits

N°	TT N°	QUANTITY	TYPE	APPLICATIONS
1	TSA.154.11	10 Gr (sachet)	BLUE - UNIVERSAL	This Grease is the TT standard. See TSK.10 above.
2	TSA.3280.1	10 Gr	HIGH TEMPERATURE	For sliding pins in Calipers
3	TSA.3281	10 Gr	HIGH TEMPERATURE	For rubber parts in Calipers
4	SF.1799.1	8 GMS (sachet)	CLEAR	Suitable for all valves
5	SF.1799.3	15 GMS	CLEAR	X2 supplied in spring brake kits
6	SF.1803.1	8 GMS (sachet)	BLACK	Suitable for gearbox valve Actuating pins
7	TSA.181	8 GMS (sachet)	SILICONE	UNIVERSAL Especially suited to high temperature and hydraulics

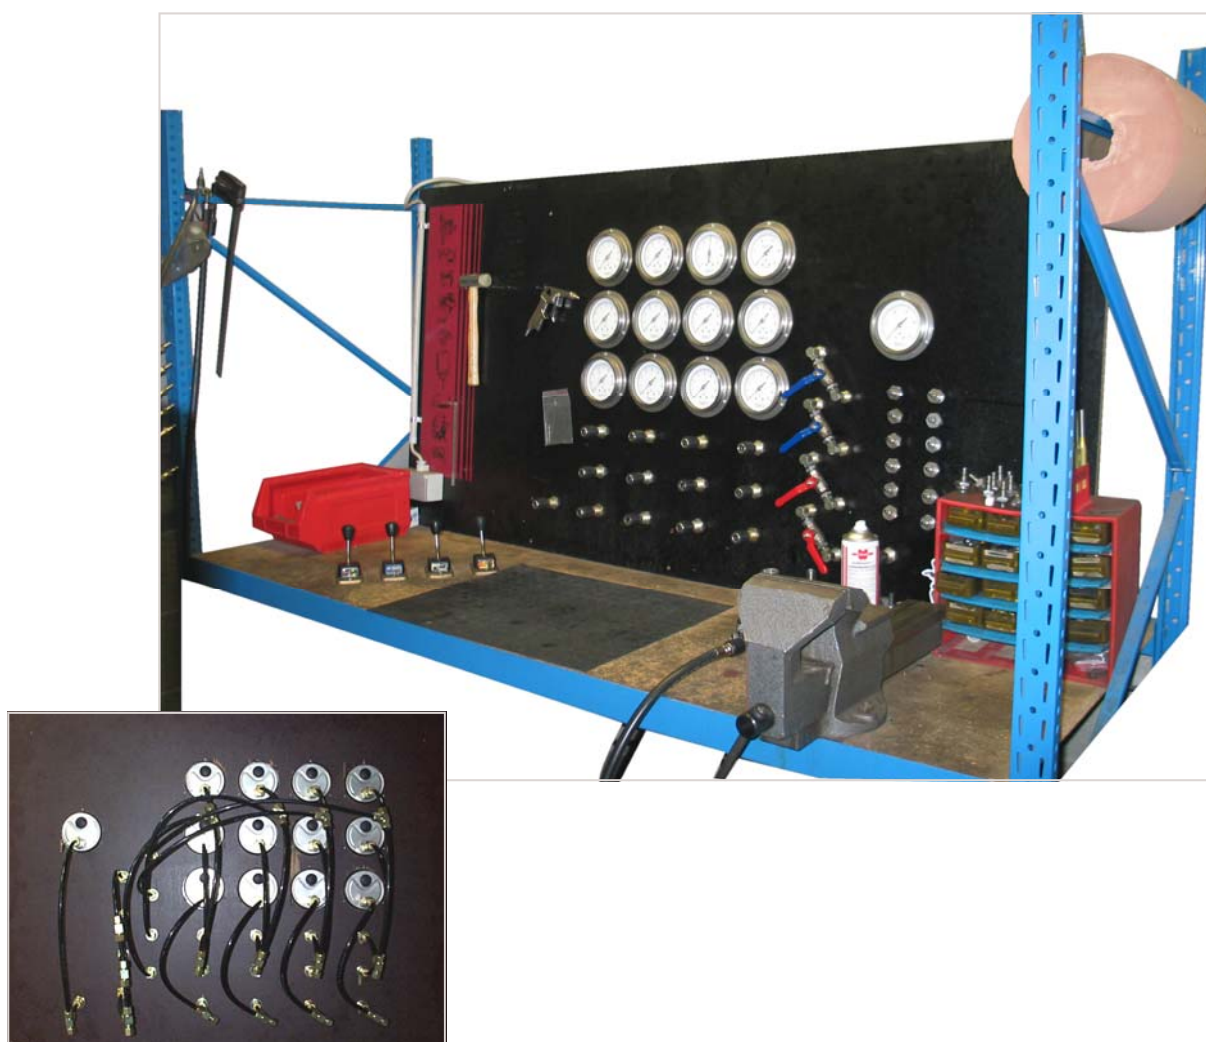

No grease is supplied in 'S' or simplified (cheaper) repair kits

TEST BENCH FOR MOST AIR BRAKE VALVES

WITH HIGH PRESSURE CIRCUIT

GROUP **1**

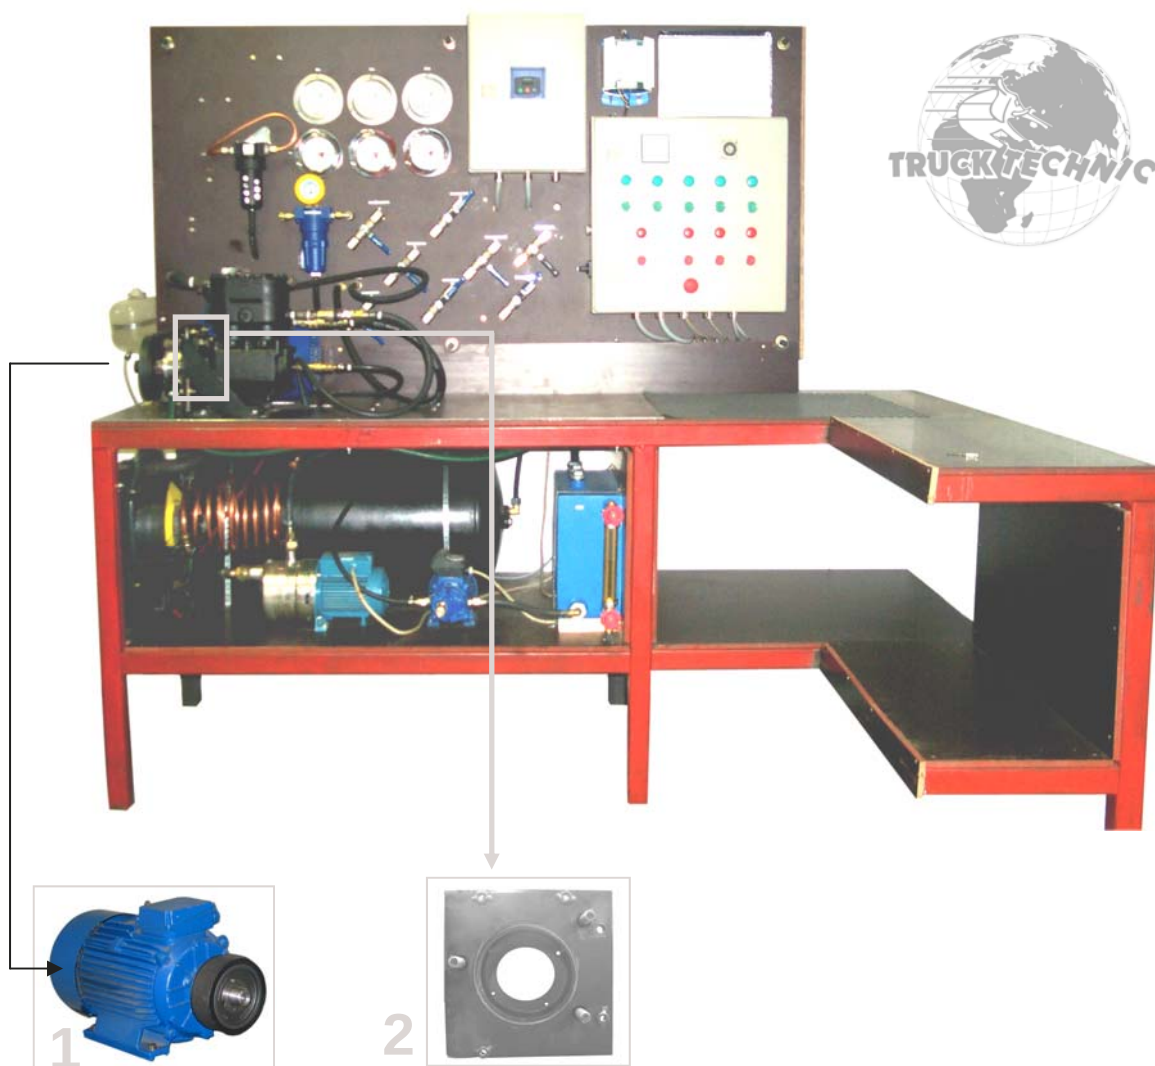

Rear view

TSK.BANC3 SUPPLIED COMPLETE IN ONE EUROPALLET

The picture above only shows the front and rear view. The panels you can see are pre-mounted by us and bench installation is made easy by an installation booklet in either English, Spanish, or French.

All necessary accessories are supplied , including air reservoirs, colour-coded hoses cut to the exact lengths, pressure control valves, test hoses c/w quick couplings.

Simply connect to a good, clean air supply.

**TSK.BANC.4**

- 1** This bench is supplied with a 15 Kw Electric motor requiring three phase 380V or 220V power.
- 2** This bench is supplied with a standard Volvo flange for compressor mounting. All types of compressors cannot operate without a variety of oil-fed flange adaptors and couplings according to the type of compressor to test.

This Bench is supplied with a cooling system in stainless steel

Complete version

*Test bench for **power steering pumps***

CONTROLS AND SETTING

Spindle speed adjustable in the range	0 - 1500 r.p.m.
Motor power rating	7,5 HP
Input lines	N° 2
Output lines	N° 2
Spindle rotation in both clockwise and counterclockwise direction	•
Pump delivery test with flowrate ranging from 0.5 to 70 litres per minute, with accuracy up to < 2% of the measured value	•
Pressure control	0 - 250 bar
Output line throttling	•
Oil heating element with thermometer and automatic switching-off	•
Pressure and discharge filter	•
Power supply	380 V - 50 Hz

Technical data**SIZES**

Width	900 mm
Depth	900 mm
Height	1600 mm
Weight	400 Kg

WSK.63.9.C**WSK.63.9C COMPLETE 432.430 / 431 / 432**

We have phased out repair kit **WSK.63.9** in favour of **WSK.63.9C**

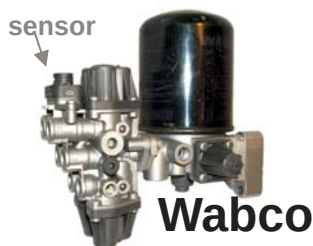

- 1  **Check valve parts added** 899.320.460.A (1) & 899.506.650.4 (2)
 2  These parts should be used with o-rings 7.3 x 2.4 to replace used valves.

- 1  **Plastic exhausts 432.431.551.2 (1)** are often damaged or lost, when silencers are pulled off, or when customers try to do in situ repairs. We will include this, plus its holding circlip, and the main valve assy **432.430.629.2 (2)** which can be used in conjunction with aluminium exhausts (older types) so long as the aluminium disc below old valve assemblies is not reused.

SEE NEXT PAGE FOR WSK.63.9C APPLICATIONS

KSK.63.23

The diagram illustrates the components and assembly steps for the KSK.63.23 device. The main assembly shows a black cable with a circular sensor head, a small black box, and a white cable. Below this, two boxes labeled A and B show the assembly of the cable. Box A shows a cable being cut with scissors. Box B shows a cable with a red and black wire. Box C shows a cable with a red and black wire. Box D shows a cable with a red and black wire.

The image shows the disassembled components of a KSK.63.24 device. The main assembly consists of a black plastic housing with a silver-colored metal flange on the left side. A white, cylindrical handle is attached to the top of the housing. Two black wires are connected to the metal flange. To the right of the main assembly are two separate parts: a dark, textured, cross-shaped component and a thin, circular metal ring.

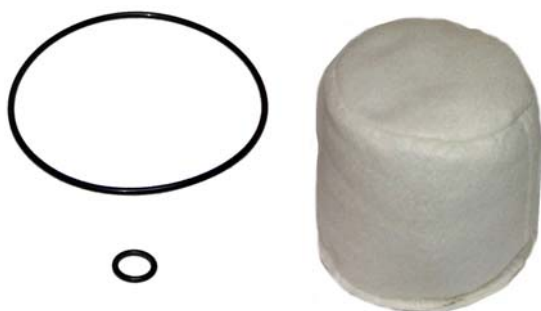

A circular metal component, likely a flywheel or a similar rotating part, with a central shaft and a black cap. The component is marked with 'WSK.14.4' and '597132'.

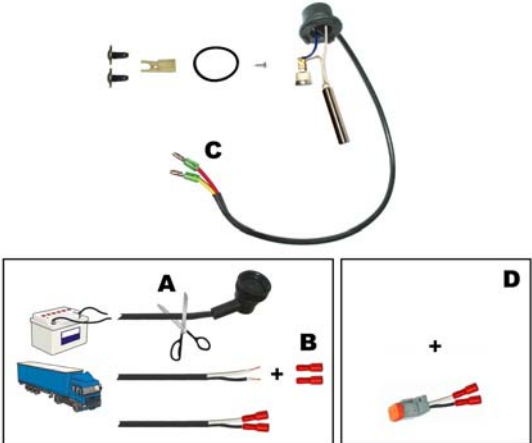

The image displays a variety of mechanical parts, likely for a vehicle's suspension or steering system. The top row includes a large coiled spring, a smaller coiled spring, two black gaskets with four mounting holes, a yellow cap, and a small metal fastener. The bottom row features a large C-clip, several O-rings of different sizes, a small red O-ring, a small metal pin, a black bush, a white bush, and a metal bracket.

Fitting kits will include bolts & screws to allow fitment to ROR – BPW – SAF backplates.

REPAIR KITS

HSK.1.3S

- Due to continuous movement of the **Worm Screw** (**), wearing of the body is inevitable.
- The free movement allowed is "0.015 mm - 0.060 mm".
- When out of tolerance, use the **SHIMS** (*) provided to reduce this free movement.

NEW MODEL MJ SERIES

Release Bolt

Patented "Dual Thread Bolt" design, an MGM Brakes exclusive, provides minimal bolt protrusion at maximum release.

« Roll In » Tamper Resistant Design

With the MGM Brakes' patented "Roll-In" Tamper Resistant design, the heavy gauge steel head is permanently "locked" to the rugged, non-corrosive alloy 360 aluminium center case to positively prevent inadvertent disassembly of the power spring housing.

IMPORTANT NOTICE

Dear customers,

Our OIL SEAL KITS contain varying quantities (1 piece—5 pieces—10 pieces), the prices quoted are for a complete kit. In order to know the exact price for only 1 (piece) Oil Seal, please divide the price by the quantity in the kit.

For example:

PART N°	QUANTITY / KIT	PRICE	PRICE / PIECE
TOSK.58	10 PCS	5,80 €	$5,80:10 = 0,58 \text{ €/PCE}$
